Use the template without changing its boundaries

1

Add only current local information

Use an active phone number, website, out-of-hours pathway, and verified local aftercare contacts.

2

Keep the choice-based language

Do not imply that a family should read, believe, print, register, or respond.

3

Do not create an endorsement

Your logo identifies the distributing organisation; it does not create an affiliation with PetLoss.net.

4

Review before distribution

Test the QR code and links, print one copy, check mobile readability, and record an annual review owner.
